SUMMARY

Full-stack developer and agentic AI builder experienced in shipping production systems with Node.js, Express, React, FastAPI, PostgreSQL, and MongoDB. Built and deployed a live AI hiring platform that processes 200+ resumes asynchronously using LangGraph-based agentic workflows, semantic candidate ranking, and AWS infrastructure. Strong foundation in REST API design, microservices, and background job processing.

SKILLS

Languages: Python, JavaScript, TypeScript, C++, SQL

Backend & Databases: Node.js, Express.js, FastAPI, MongoDB, PostgreSQL, REST APIs, Microservices, JWT Authentication

AI & Machine Learning: LangGraph, LangChain, Pydantic, RAG, ChromaDB, NLP, Semantic Search & Embeddings, Groq API, Hugging Face, OpenAI API

Web & Cloud: React.js, Next.js, AWS (EC2, S3), Docker, Vercel, BullMQ/Redis, Git

Core CS: OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

HireLoopAI | *React.js, FastAPI, PostgreSQL, LangGraph, Pydantic, AWS EC2* | *Live Demo* *Jun 2026 – Jul 2026*

- Architected and deployed a production-ready AI hiring platform in a 10-day sprint, live at hireloopai.me, with an asynchronous pipeline (AWS S3 + BullMQ/Redis) that ingests 200+ PDF resumes without blocking the UI.
- Designed agentic parsing workflows with LangGraph and Pydantic (Llama-3.3-70B via Groq) and built semantic candidate ranking using sentence-transformer embeddings and cosine similarity.

BrainDesk AI | *React, TypeScript, FastAPI, LangChain, ChromaDB, Vanilla JS* | *Live Demo* *Jul 2026 – Present*

- Built a multi-tenant B2B SaaS platform with FastAPI and SQLAlchemy, giving each business an isolated AI support agent grounded in a custom RAG pipeline (LangChain, OpenAI API, ChromaDB).
- Shipped a dependency-free vanilla JS chat widget for single-script-tag embedding across Next.js, WordPress, and HTML sites.

Grading AI — Handwritten Evaluation System | *Python, NLP, OCR* | *GitHub* *Aug 2025 – Oct 2025*

- Built an end-to-end grading pipeline digitizing handwritten answers with OCR and NLP, reaching 92% extraction accuracy and cutting grading time by ~80%.

EXPERIENCE

Full Stack & Agentic AI Trainee — Programming Pathshala *Jun 2026 – Jul 2026*

- Completed an intensive MERN-stack bootcamp covering API-driven application design, authentication, and deployment workflows.
- Independently designed and shipped 3 full-stack web applications with RESTful API integrations and scalable server-side architecture.

Intern — GPCSSI, Gurugram Police *Jun 2025 – Jul 2025*

- Gained hands-on exposure to cybercrime and financial-fraud patterns; built a Smart FIR Management & Tracking System to digitize incident reporting and streamline case tracking for internal stakeholders.

AI & Machine Learning Intern — COERA, K.R. Mangalam University *Jul 2024 – Aug 2024*

- Developed and evaluated ML models using NLP and computer vision for real-world automation use cases, later applied directly in HireLoopAI and Grading AI.

EDUCATION

K.R. Mangalam University, Gurugram *2023 – 2027*

B.Tech in Computer Science (AI & ML) — CGPA: 8.80 / 10

CERTIFICATIONS & ACHIEVEMENTS

- AI & ML (Samatrix), AI & ML (Pregrad), Data Analysis with Python (IBM), Intro to Generative AI (Simplilearn).
- Top 10 Finalist, Smart India Hackathon (Internal Round) — 7+ hackathons completed in agile teams of 3–5.
